KUALA LUMPUR: Malaysia is listed as one of the countries with highest rates of kidney failure cases in the world with an average of 8,000 new cases detected each year.

In view of that, RCE Capital Berhad (“RCE”) donated medical equipment for patients with chronic kidney disease to Hospital Kuala Lumpur (“HKL”) to support and alleviate the burden of our healthcare system .

The medical equipment worth RM78,000 consists of 2 units of Dialysis Machine Surdial-55 Plus 230V(CE) Type C2 (Type A+B) with Acid Rinse Port and Blood Pressure Monitor. These medical equipment are crucial in facilitating the filtration and purification of blood by removing waste and excess fluid from patient’s body.

HKL was founded in 1870. It is the largest government hospital under the Ministry of Health of Malaysia, equipped with 83 wards and 2,300 inpatient beds. The hospital has 28 clinical departments and provides 12 clinical support services.

Over the years, RCE has been focusing on promoting health awareness through various corporate social responsibility programmes. RCE also donated close to RM400,000 worth of medical equipment to the intensive care wards of the Hospital on 2 September 2021 as well as Hospital Ampang, Hospital Sungai Buloh and Hospital Tengku Ampuan Rahimah on 17 August, 29 and 22 July 2021 respectively.
