KUCHING: RCE Capital Berhad ("RCE") donated medical equipment to Hospital Umum Sarawak ("HUS"). This initiative is part of our corporate social responsibility program, aimed at supporting HUS in enhancing the quality of its healthcare services.

The medical equipment worth RM80,000 consist of 1 unit of compact ultrasound system. It is crucial for various purposes such as pregnancy evaluation, abdominal scans, vascular assessment, and more.

HUS is the largest government hospital in Sarawak located in Kuching. The hospital began its operation as early as 1870. HUS currently has 1,007 inpatient beds and various clinical departments, including Cardiology, Cardiothoracic, Neurosurgery, Plastic Surgery, Clinical Research Unit, and others.

Over the years, RCE has been focusing on promoting health awareness through various medical equipment donations. To-date, RCE donated close to RM630,000 worth of medical equipment to 6 government hospitals: Hospital Tengku Ampuan Rahimah, Hospital Sungai Buloh, Hospital Ampang, Hospital Kuala Lumpur, Hospital Putrajaya, and HUS. RCE is hopeful that these contributions could help alleviate the burden of our healthcare system on heavy load of medical cases and provide sufficient medical treatment to the patients.
