RCE Capital Berhad donates medical equipment worth RM65,000 to Hospital Kuala Lumpur

Handover Ceremony at Hospital Kuala Lumpur on 11.11.2026.

KUALA LUMPUR: RCE Capital Berhad ("RCE") donated medical equipment to Hospital Kuala Lumpur ("HKL"). This initiative is part of our corporate social responsibility program, aimed at supporting HKL in enhancing the quality of its healthcare services.

The medical equipment worth RM65,000 consists of 25 units of hospital medication cart. It is a mobile medical storage solution designed to securely organise, store, and transport medications within healthcare facilities, which streamline the drug administration process and reduce risk of medication errors.

HKL was established in 1870. It is the largest government hospital under the Ministry of Health of Malaysia, equipped with more than 100 wards and more than 2,300 patient beds. The hospital has 27 Clinical Departments and 18 Clinical Support Departments with over 150 specialties and sub-specialties.

Over the years, RCE has been focusing on promoting health awareness through various medical equipment donations. To-date, RCE donated close to RM1.1 million worth of medical equipment to 8 government hospitals: Hospital Tengku Ampuan Rahimah, Hospital Sungai Buloh, Hospital Ampang, HKL, Hospital Putrajaya, Hospital Umum Sarawak, Hospital Sultan Idris Shah Serdang, and Hospital Selayang. RCE is hopeful that these contributions could help alleviate the burden of our healthcare system on heavy load of medical cases and provide sufficient medical treatment to the patients.
